BALDOCER

White body tiles

Somos una empresa con más de 25 años de experiencia en la fabricación de baldosas cerámicas de la más alta calidad. Baldocer nace con la convicción de que hay una forma diferente de hacer las cosas: más eficiente, innovadora y adaptada a las necesidades cambiantes del mercado sin perder un ápice de calidad. Por eso hoy Baldocer es uno de los fabricantes de referencia en el sector español. Hoy como ayer seguimos trabajando por ofrecer un producto asequible y en tendencia, tanto funcional como emocionalmente.

EN We are a company with over 25 years of experience in the production of ceramic tiles of highest quality. Baldocer was born from the conviction that there is another way to do things: more efficient, innovative and adapted to the changing needs of the market, without renouncing quality in any way. This is why Baldocer now is a renowned manufacturer in the Spanish sector. Today as in the past we are working to offer an affordable product that is in line with up-to-date tendencies on a functional and emotional level.

DE Wir sind ein Unternehmen mit mehr als 25 Jahre Erfahrung in der Herstellung von keramischen Fliesen der höchsten Qualität. Baldocer entsprang aus der Überzeugung, dass es eine bessere Art gibt, Dinge zu gestalten: effizienter, innovativer und angepasst an die stetig wechselnden Bedürfnisse des Markts, ohne dabei auf Qualität zu verzichten. Daher ist Baldocer heute eine Referenz unter den Herstellern in Spanien. Gestern wie heute arbeiten wir stets daran, ein erschwingliches Produkt anzubieten, das rational und emotional den aktuellen Tendenzen entspricht.

FR Nous sommes une société qui bénéficie d'une solide expérience de plus de 25 années dans la fabrication de carreaux de céramique de haute qualité. Baldocer s'est développée avec la conviction qu'il existe une approche différente dans la production: à la fois plus efficace, à la recherche permanente de l'innovation et donc mieux adaptée aux évolutions constantes du marché, tout en demeurant très exigeant sur le niveau de qualité. C'est pour ces raisons que Baldocer est aujourd'hui l'un des fabricants de référence en Espagne. Notre ambition est d'offrir un produit accessible qui réponde parfaitement aux attentes, à la fois pour ses caractéristiques fonctionnelles et pour les émotions qu'il procure.

Baldocer apuesta por el pequeño formato con B|small, una colección para revestimiento de baldosas en los formatos 15x15 cm, 15x30 cm, 7,5x30 cm y 25x25 cm en pasta blanca que recupera el encanto de la cerámica tradicional, poniendo de manifiesto el valor decorativo de la junta.

Reproducciones de materiales, colores, decorados... todo tiene cabida dentro de una colección llena de posibilidades decorativas.

EN _ Baldocer bets on the small format with B|small, a collection for wall in sizes 15x15 cm, 15x30 cm, 7,5x30 cm and 25x25 cm that recovers the charm of the traditional ceramic, highlighting the decorative value of the joint.

Reproductions of materials, colors, decorations... everything has a place within a collection full of decorative possibilities

DE _ Baldocer setzt mit B|small auf das Kleinformat, eine Kollektion mit weißscherbigen Wandfliesen in den Formaten 15x15 cm, 15x30 cm, 7,5x30 cm und 25x25 cm, die mit dekorativen Fugen den Charme der traditionellen Keramik wiederbelebt.

Ein Spiel zwischen Materialien, Farben und Dekorationen... Alles enthalten in einer Kollektion voll mit gestalterischen Möglichkeiten.

FR _ Baldocer mise sur le petit format avec B|small, une gamme en faïence pâte blanche 15x15 cm, 15x30 cm, 7,5x30 cm et 25x25 cm qui rappelle les charmes de la céramique traditionnelle et qui met en avant le côté décoratif des joints.

Reproductions de matériaux, de couleurs, de décors... tout a sa place dans cette gamme aux multiples possibilités décoratives.

B|small

THE LITTLE SURFACES

B|small cuenta con volúmenes que destacan por su tridimensionalidad que le dan una personalidad única a los recubrimientos, además de con reproducciones de baldosas hidráulicas, que actualizan y mejoran las propiedades técnicas del material tradicional.

El uso de la cerámica ya no se limita a cocinas y baños sino que gracias a su variedad gráfica y cromática llega a todo tipo de espacios.

Para dar respuesta a estas necesidades la oferta de piezas cerámicas de Baldocer es amplia y para ahondar aún más en la versatilidad de este material las colecciones se completan con colores y decorados.

EN The use of ceramics is not limited to kitchens and bathrooms; thanks to its graphic and chromatic variety it reaches all types of spaces.

In order to respond to these needs, Baldocer offers a wide range of ceramic pieces, and to further amplify the versatility of this material, the collections are completed with colors and decorations.

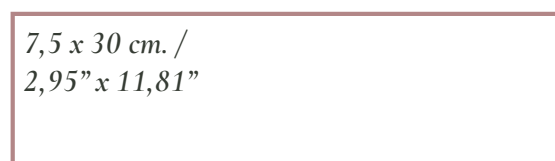

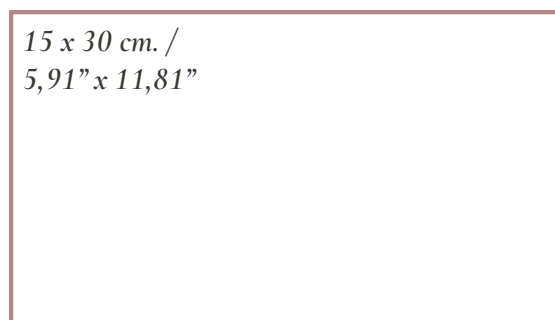

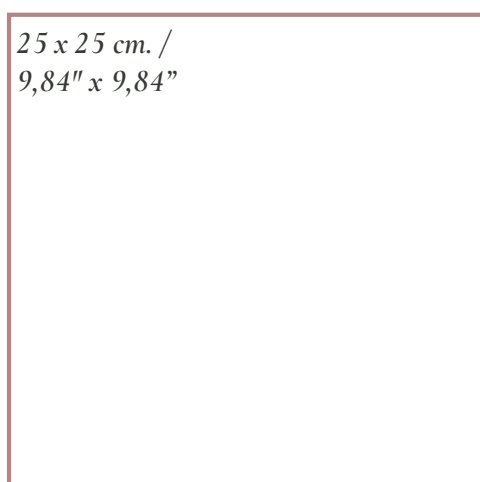

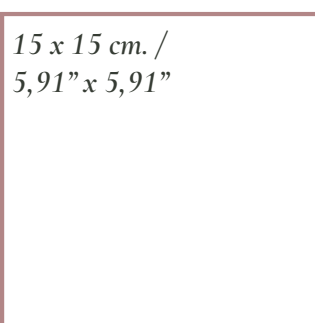

DE Die Verwendung von Keramik beschränkt sich nicht nur auf Küchen und Bäder, sondern erreicht dank ihrer grafischen und farblichen Vielfalt alle Arten von Räumen.

L'offre de carreaux céramiques de Baldocer est ample afin de répondre aux besoins et les collections sont complétées avec des couleurs et des décors.

FR L'utilisation de la céramique ne se limite pas aux cuisines et aux salles de bains, mais grâce à sa variété graphique et chromatique, elle atteint tous les types d'espaces.

Um auf diese Bedürfnisse zu antworten, bietet Baldocer eine breite Palette an keramischen Elementen an. Um die Vielfältigkeit dieser Kollektionen zu vertiefen, werden sie mit weiteren Farben und Dekoren vervollständigt.

SIMBOLOGÍA / SYMBOLS

Escala de destonificación del color Shade variation program scale

V1 ASPECTO UNIFORME / V1 UNIFORM APPAREANCE

Todas la piezas de la misma partida son similares.
All the pieces from the same production run are similar.

V2 DESTONIFICADO LIGERO / V2 SHADE VARIATION:LOW

Diferencias claramente perceptibles en textura y/o
diseño pero con colores similares.
*Clearly distinguishable differences in texture and/or
pattern but with similar colors.*

V3 DESTONIFICADO MEDIO / V3 SHADE VARIATION:MEDIUM

La intensidad del color de cada pieza puede variar
significativamente, aunque los colores presentes en una
baldosa serán representativos de los colores que cabe
esperar en el resto de baldosas.

*While the colors present on a single piece of tile will be
indicative of the colors to be expected on other tiles, the
amount of color on each piece will vary significantly.*

V4 MUY DESTONIFICADO / V4 SHADE VARIATION:HIGH

Diferencias de color aleatorias entre unas baldosas y
otras, de manera que cada una de ellas puede tener
colores completamente distintos de las demás. De este
modo, la colocación final será única.

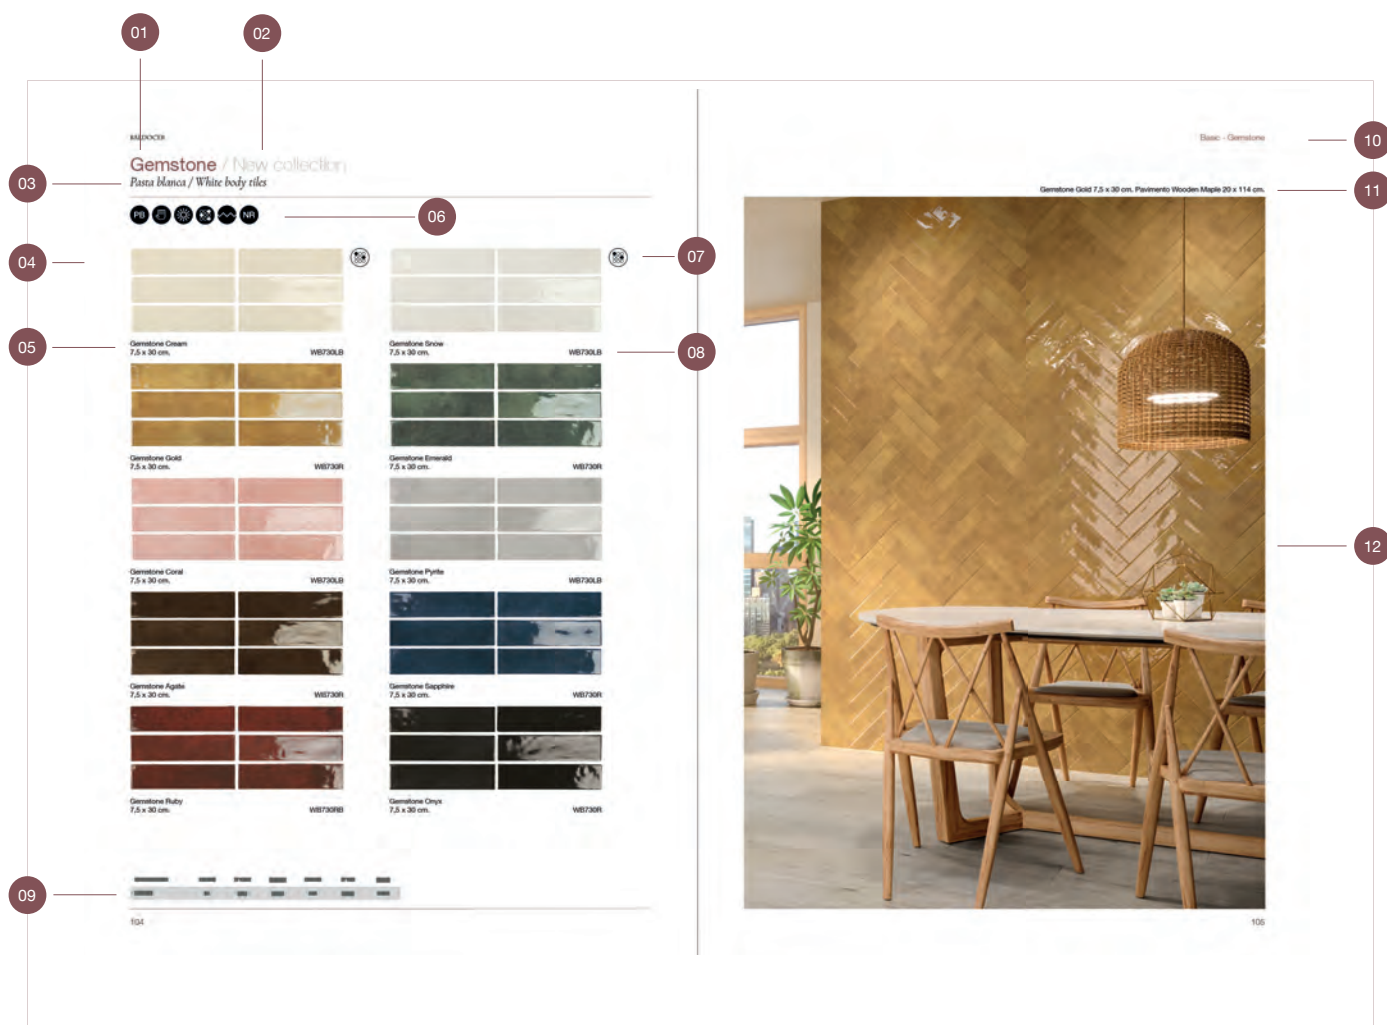

*Random color differences from tile to tile, so that one
tile may have totally different colors from that on other
tiles. Thus, the final installation will be unique.*

MANUAL TÉCNICO /
TECHNICAL GUIDE
MANUEL TECHNIQUE
TECHNISCHES HANDBUCH

ES

Recomendaciones para el mantenimiento de los materiales pulidos.

El material pulido tiene mayor predisposición a la aparición de manchas debido a los pequeños micro-poros que se originan durante el proceso de pulido. Asimismo, los pulidos no toleran los ácidos y álcalis de alta concentración tales como el ácido clorhídrico, ácido láctico e hidróxido potásico. Por lo tanto, se recomienda para su mantenimiento, el uso de ácidos de baja concentración o productos domésticos de limpieza.

DE

Verwendungs- und Pflegeempfehlung für polierte Fliesen.

Das polierte Material neigt zur Fleckenbildung aufgrund der Mikroporen, welche während des Polierprozesses entstehen. Die Politur verträgt keine hochkonzentrierten Säuren und Laugen wie beispielsweise Salzsäure, Milchsäure und Kaliumhydroxid. Aus diesem Grund wird die Verwendung von schwachen Säuren und Haushaltsprodukten zur Pflege empfohlen.

EN

Polished tiles recommendations of use and maintenance.

The polished material has a greater predisposition to the appearance of stains due to the small micro-pores that originate during the polishing process. Likewise, polishes do not tolerate high concentration acids and alkalis such as hydrochloric acid, lactic acid and potassium hydroxide. Therefore, the use of low concentration acids or household products is recommended for maintenance.

FR

Recommandations pour l'entretien des matériaux polis.

Les matériaux polis sont plus sensibles à l'apparition de tâches due aux petits micropores survenant pendant le processus de polissage. De même, ils ne tolèrent pas les acides et alcalins de concentration élevées tel que l'acide chlorhydrique, l'acide lactique et de l'hydroxyde de potassium. Par conséquent, il est recommandé pour l'entretien, l'utilisation d'acides à faible concentration ou des produits de nettoyage ménagers.

NORMAS DE MANTENIMIENTO Y LIMPIEZA /

CLEANING AND MAINTENANCE

Limpieza final de obra

Después de la colocación es fundamental realizar una buena limpieza con el fin de eliminar residuos de junta y en general suciedad de la obra. Para esta operación recomendamos el empleo de un detergente de acción ligeramente ácida que no despidan humos tóxicos y respete las juntas, el material y el usuario, como FILADETERDEK. En el caso de material colocado con junta epoxi o en base resina, se aconseja realizar la limpieza final de obra con un limpiador específico de residuos epoxi, como FILACR10.

Mantenimiento

Para un buen mantenimiento del pavimento se aconseja el empleo de un detergente neutro con alto poder limpiador como FILACLEANER. En los casos de suciedad intensa e incrustada acumulada en el tiempo, se aconseja consultar el esquema a continuación para encontrar el producto Fila ideal para cada situación.

Cleaning after laying

We suggest a good initial cleaning after the laying on the floor or wall, this is very important for removing residual grouting and the normal dirt coming from the building works.

We suggest the use of our product FILADETERDEK, that is a lightly acid product that doesn't emit fumes that are harmful for the user and that can attack joints.

In case of material layed with epoxy or resinous grouting, we recommend to clean after laying with our specific detergent FILACR10.

Regular maintenance

For a good cleaning of the floor we suggest the use of our product FILACLEANER it's a natural detergent with a high cleaning power.

In case of strong dirty and encrusted by the time, we recommend to consult the following scheme to find the perfect solution to every situation.

Tipo de suciedad incrustada	Producto Fila a utilizar
Residuos de cemento de colocación, residuos calcáreos, rayas metales, depósitos de óxidos	DETERDEK
Residuos de junta epoxi, vitrificada, resinosa	FILACR10
Suciedad orgánica ligera (limpieza diaria)	FILACLEANER
Suciedad orgánica intensa (comidas, grasas, aceites), residuos de detergentes y jabones, goma, neumáticos, tintes, rotulador, pintura plástica	FILAPS87
Pintadas de grafitis, spray acrílicos, alquídicos y nitro sintéticos	FILANOPAINT STAR
Verdín, algas, musgos, líquenes y ennegrecidos en exteriores	FILAALGAE NET
Moho interior por condensación	FILAACTIVE 1
Residuos de silicona, cera de velas, resinas árboles, residuos cinta adhesiva, residuos de espuma poliuretánica, residuos de pegamentos, etc.	FILAZERO SIL

Type of dirty	Das richtige Product
Zement, Kalkstein, metal tracer, rust	DETERDEK
Residuals, stains and halos of epoxi joints	FILACR10
Greasy, drinks, food, tire marks, colors, marker, etc.	FILAPS87
Graffiti	FILANOPAINT STAR
Silicone residues, glue, wax candel, adhesive tape residues	FILAZERO SIL

the 1980s, the 1990s and the 2000s. The 1980s were dominated by the 'new wave' of rock music, the 1990s by the rise of grunge and the 2000s by the dominance of pop and hip-hop. The music industry has also seen a significant shift in the way music is consumed, with the rise of digital music and streaming services. This has led to a decline in the sales of physical music formats such as CDs and DVDs, and a corresponding increase in the popularity of digital music.

The music industry has also seen a significant shift in the way music is marketed and promoted. In the past, record labels were responsible for promoting their artists and their music. However, in the 2000s, artists have taken a more active role in promoting their music, often using social media and other digital platforms to reach their fans. This has led to a more direct relationship between artists and their fans, and has also led to a decline in the power of record labels.

The music industry has also seen a significant shift in the way music is created and recorded. In the past, music was often recorded in a studio with a large number of musicians and producers. However, in the 2000s, music has become more DIY, with many artists recording their music at home or in small studios. This has led to a more diverse range of music, and has also led to a decline in the power of record labels.

The music industry has also seen a significant shift in the way music is distributed. In the past, music was primarily distributed through record stores and other physical outlets. However, in the 2000s, music has become more available through digital platforms such as iTunes and Amazon. This has led to a decline in the sales of physical music formats, and has also led to a decline in the power of record labels.

The music industry has also seen a significant shift in the way music is consumed. In the past, music was primarily consumed through the radio and other physical outlets. However, in the 2000s, music has become more available through digital platforms such as streaming services. This has led to a decline in the sales of physical music formats, and has also led to a decline in the power of record labels.

The music industry has also seen a significant shift in the way music is promoted. In the past, record labels were responsible for promoting their artists and their music.
